WORK EXPERIENCE

Associate Software Engineer

Sryas Inc. | October 2021 to current

Creating new billing software for one of the oldest telecom company in North America. As part of frontend dev team, I am working on creating reusable Vue components, adding dynamic data to them and using them in multiple places in the application. Making sure design of the webapp replicate modern design standards and provide excellent user experience.

Web Developer, DMS

Invest Ottawa | May 2021 to July 2021

As COVID-19 was on peak and main street business were shutting down, we were helping them to go online and build a digital business to thrive. I was supporting businesses by creating and managing online stores, websites, and creating online courses.

Python Developer and Back-end Engineer

WiseL | 2016 to 2018

Created a platform for schools, specifically for teachers, who has a lot of burden rather than just teaching. It provided functionality from marking attendance to sending grades to parents.

Software Development Intern

Punchit.io | May, 2017

Reformed their APIs and helped to migrate from python 2 to python 3. I have always been a person of contact for them whenever their server was malfunctioning.

Software Development Intern

Poshaq @ Thingsxthings | May, 2016

Worked on a part of algorithm that is going to suggest best combination of clothes from their inventory.
